EDUCATION

University of Pennsylvania, College of Arts & Sciences, Philadelphia, PA
Bachelor of Arts in Computer Science and Urban Studies

May 2026

University College London, London, UK
Semester Abroad at Bartlett School of Planning

December 2024

WORK EXPERIENCE

PricewaterhouseCoopers LLP, *Technology Consulting Intern* | New York, NY

June 2025 – August 2025

- Worked on HR Transformation project for major media client using SAP SuccessFactors to identify details for how software transition will be implemented
- Developed weekly status update presentations to showcase at executive meetings utilizing PowerPoint, action trackers utilizing Excel and Jira, centralized Sharepoint system, weekly recap emails, and scheduled regular client meetings on Teams as part of Program Management group

E-Consult Solutions Inc., *Business Development Intern* | Philadelphia, PA

January 2025 – May 2025

- Conducted preliminary research for client projects studying economic impacts of office-to-residential conversion programs, public transit ridership, bank loans and racial disparities, and urban private university donations
- Utilized Excel to create graphs on spending patterns of certain ethnic groups in major American cities

Siemens Energy, *Software Engineer Intern* | Orlando, FL

June 2024 – August 2024

- Designed Entity Relationship Diagrams to structure OracleSQL database with over 15 million entries and implemented K-Means Clustering to segment rural regions in Colombia based on energy disparities, identifying key areas for intervention
- Developed GIS map to visualize energy disparities for over 500,000 households and presented actionable insights to Siemens Energy executives, influencing data-driven strategies for optimizing energy distribution

RESEARCH

Hassenfeld Grant for Undergraduate Research in Urban Studies, *Researcher* | Bangalore, India

May 2025 – Present

- Selected as grant recipient to conduct fieldwork for senior thesis, “Nobody Moves: The Impact of Rideshare Apps on Transportation Infrastructure and Social Hierarchies in Bengaluru, India” from detailed proposal
- Interviewed over 50 drivers, passengers, and field experts during one-month stay in Bengaluru to understand impact of rideshare apps on traffic, driver labor, and women’s safety
- Utilized Machine Learning to derive insights from qualitative interviews using NVivo software

Wharton Climate Decisions Lab, *Research Assistant* | Philadelphia, PA

May 2023 – May 2024

Selected as 1 of 200 from 2000 applicants for Penn Undergraduate Research Scholar Award of \$5000

- Programmed traffic simulation on NetLogo software to quantitatively assess financial impact of “Complete Streets” policy
- Conducted detailed ROI analysis by analyzing 40 datasets with Python pandas to provide measure of policy effectiveness
- Presented findings to 500 attendees at Penn Research Symposium and Penn Climate Week events

LEADERSHIP

Penn Thillana, *Captain* | Philadelphia, PA

August 2022 – Present

- Led university’s premiere classical Indian dance team of 25 at performance venues such as Carnegie Hall, Penn Thillana Spring Showcase and Penn South Asia Cultural Show Showcase for audiences of up to 1300
- Choreographed dances, developed complex soundtracks, organized scheduling logistics, created promotional materials, and designed merchandise for team

CoderChicks Inc., *Founder* | Orlando, FL

September 2018 – July 2022

- Founded 501(c)(3) non-profit organization empowering over 450 girls in low-income communities with free computer science education via 25+ coding workshops and implementing original Python game design curriculum at Sanford Middle School
- Managed and led over 50 volunteers and collaborated with local businesses to raise over \$10,000 for workshops
